LEASE FINANCE

KENNET FINANCE **STAR** Business Finance Group

**EQUIPMENT LEASING FOR UK BUSINESSES:
A STRATEGIC FINANCIAL SOLUTION**
Leasing rentals, or equipment leasing, empower UK businesses by offering access to vital equipment without substantial upfront costs.

How does leasing work?
Through a finance lease arrangement, we acquire the equipment of your choice and subsequently lease it to you for an agreed duration. You select the asset from your preferred supplier, and we procure it, allowing you to utilise it as if it were your own, while making agreed-upon monthly or quarterly payments. We maintain ownership of the equipment during this period.

What happens at the end of a lease?
At the end of the term of the agreement, we can relinquish our financial interest in the equipment for one further monthly payment*.

Unlock the potential benefits:

- Accessible to All:** Whether a sole trader, partnership, or limited company, equipment leasing benefits all business types.
- Cash Flow Freedom:** Preserve capital and boost financial stability. Acquire essential equipment without depleting resources.
- Tax Advantages**:** Lease Rental Payments could be 100% Tax Deductible! In most cases the cost of leasing is deductible as a business expense, reducing your overall tax bill. This could mean a saving of 19% - 25% of the lease payments depending on your profit band and rate of tax applicable to your business.
- Flexible Terms:** Tailor leases to your business's needs, spanning 2 to 5 years.
- Adapt to Fluctuations:** For businesses with seasonal or cyclical cycles, leasing allows payment adjustments according to cash flow.
- Efficient Approvals:** Kennet's swift approval process minimises delays, providing you with the required equipment promptly.
- Strategic Partnership:** Partner with Kennet for seamless equipment leasing, sparing your business from the financial burden of upfront purchases.
- Cutting-Edge Equipment:** Stay ahead in your industry with access to the latest technology. Leasing keeps you competitive.

Considerations: Non-payment of any lease agreement could negatively affect the credit rating of both the business and any Guarantor and could result in the equipment being re-possessed.

DEMISTIFYING EQUIPMENT LEASING:

Example equipment cost:	£5,000
Years Trading:	3 years plus
Lease term:	5 years
Monthly payment:	£115
Total payments:	£6,900
Tax Benefit: (Reclaim 19% of payments over 5 years)	£1,311
Net Cost: (Deduct the tax relief from payments)	£5,589

Ready to elevate your business?
Reach out to Kennet and embark on a journey to success through strategic equipment leasing!
